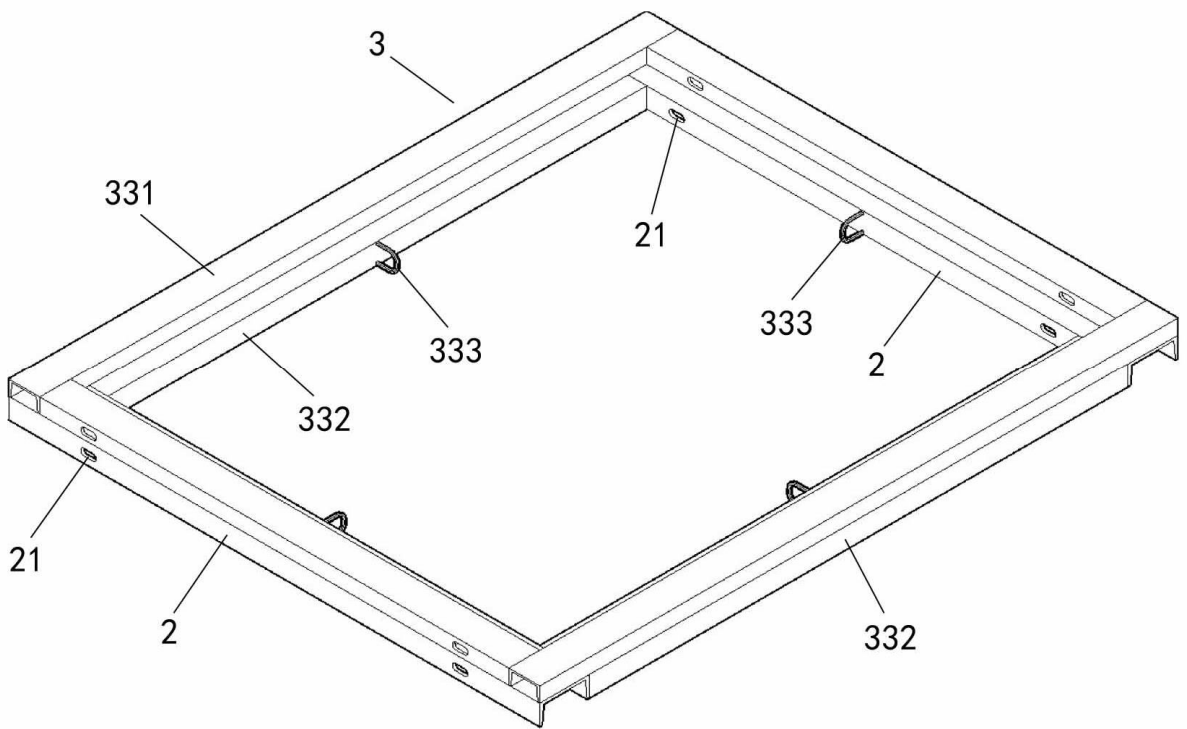

Fig. 10

A cross-sectional view of a device assembly. A large, hatched rectangular block (8) is positioned on a base (2). A smaller, hatched rectangular block (94) is positioned on top of the base (2) and is partially covered by the large block (8). A thin, hatched layer (331) is positioned between the large block (8) and the smaller block (94). The base (2) is indicated by a dashed line.
