(54) **Title:** INLET FLUID FLOW DIVERTER PORT

(57) **Abstract:** Some embodiments of the present disclosure comprise a flow diverter for use in a biocontainer or bioreactor, comprising a shoulder having a first surface and a second surface opposite the first surface, a conduit extending from the first surface of the shoulder, an inlet at a first end of the conduit, wherein the first end comprises a connector, an outlet formed within the second surface of the shoulder in fluid communication with the inlet at an end opposite the first end of the conduit and a hood adjacent to the outlet, wherein a fluid diverter is capable of directing a fluid down a sidewall of the biocontainer or bioreactor, attenuating a splashing or foaming condition.
