(54) Title: METHOD AND SYSTEM FOR FACILITATING AUTHENTICATION OF A PERSON FOR ACCESSING A GATED PROPERTY, AND METHOD AND SYSTEM FOR CONTROLLING ACCESS OF A PERSON TO A GATED PROPERTY

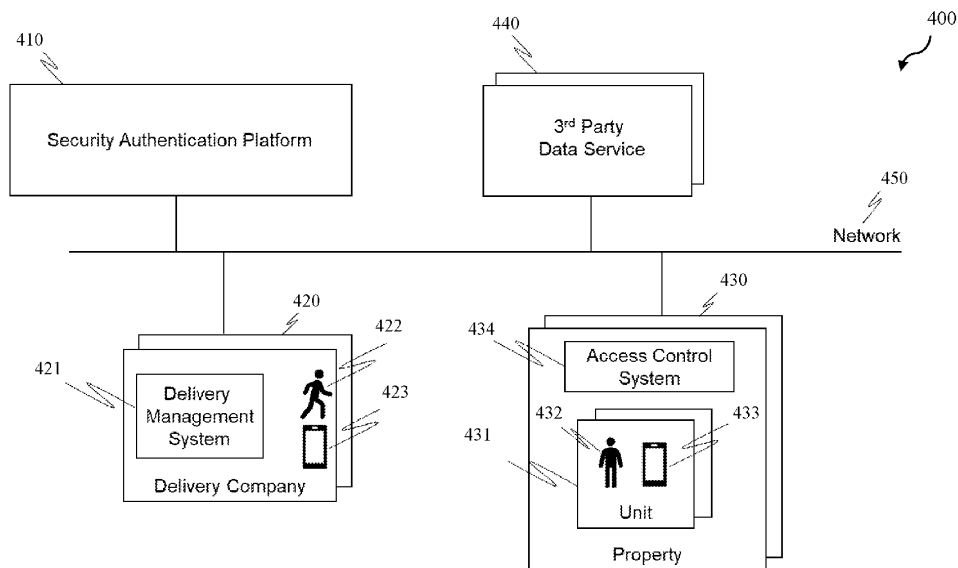

FIG. 4

(57) Abstract: There is provided a method and system for facilitating authentication of a person for accessing a gated property to perform a task therein, the method including: generating a first private-public key pair of the authentication facilitating system, the first private-public key pair being associated with the task; obtaining first personal data associated with the person; sending first task information associated with the task to an access control system of the gated property; receiving, in response to the sending the first task information to the access control system, a second public key of a second private-public key pair of the access control system of the gated property from the access control system, the second private-public key pair being associated with the task; and generating an authentication code associated with the task based on the second public key for the person to utilize for accessing the gated property
