SC, SD, SE, SG, SK, SL, SM, ST, SV, SY, TH, TJ, TM, TN,
TR, TT, TZ, UA, UG, US, UZ, VC, VN, ZA, ZM, ZW.

(84) Designated States (unless otherwise indicated, for every
kind of regional protection available): ARIPO (BW, GH,

(54) Title: MAINTENANCE MANAGEMENT SYSTEM AND METHOD

200

Fig. 2

(57) Abstract: A maintenance management system (100) is disclosed. The system (100) includes a processing device (110), a plurality of components (150_n) in communication with the processing device (110), each component having a location associated with the component (150_n) and one or more sensors for capturing usage data associated with the component (150_n), and user devices (180_k) in communication with the processing device (110). Usage data of components is communicated to the processing device (110). The processing device (110) determines from the usage data whether any of the components (150_n) requires maintenance. The location of each respective component (150_n) requiring maintenance is communicated to at least one of the one or more user devices (180_k) from the processing device.
