(54) **Title:** SOAP BAR WITH USAGE INDICIA

(57) **Abstract:** Disclosed is a solid composition of matter intended to be used by abrading a surface thereof, said surface comprising a first visible indicium associated with a first time use of the composition and at least one separate visible indicium associated with a successive use of the composition, where the first visible indicium corresponds to a quantity of composition recommended to be abraded for use of the composition for the first time and each successive visible indicium corresponds to the quantity of the composition recommended to be abraded for each successive use of the composition. Also disclosed is use of a composition of matter for educating a consumer to use recommended quantity of said composition by abrading of a surface thereof, said surface comprising a first visible indicium associated with a first time use of the composition and at least one separate visible indicium associated with a successive use of the composition, where the first visible indicium corresponds to a quantity of composition recommended to be abraded for use of the composition for the first time and each successive visible indicium corresponds to the quantity of the composition recommended to be abraded for each successive use of the composition.
