(54) Title: INFANT/TODDLER SHOWER CHAIR

FIGURE 1

(57) Abstract: This invention is a baby / infant shower chair. The chair can be placed in the shower and the baby / infant can be placed inside the capsule and locked in with the 5 point harness for safety. This can now make it easy for parents to wash their babies and infants by simply using the baby / infant shower chair. Ideally for best practice, it is recommended the parents to cleanse the baby / infant with the baby soap and wash down this soap with a cloth rather than placing the baby / infant directly under the shower head.
