(54) Title: A URINAL DEODORISER CARTRIDGE

Fig. 1A

(57) Abstract: A urinal deodoriser cartridge assembly (100) is provided. The assembly comprises an outer body (200) sized for placement in a urinal, and an insert (300) configured for insertion into and removable retention within, the outer body (200), and to retain a deodorising block (110). The assembly (100) is adapted to permit contact between urinal liquids and the deodorising block (110) by a base of the insert (300) being positionable to contact a surface of the urinal. A device configured for placement in a urinal, and for retaining a urinal deodoriser cartridge (100) assembly is also provided.
