(54) Title: ORAL ODOR CONTROL METHOD AND PRODUCT

(57) Abstract: A product and method for controlling mouth odor and bad breath using an oral care product containing an odor neutralizer. The product for use in oral care or for use in the mouth to control mouth odors includes an odor neutralizer compound. In a preferred method of manufacture, the O.M. Complex oral compound is mixed into a concentrated flavor material. The concentrated flavor material is then added in small percentages to the product during manufacture so that the resulting product includes the odor neutralizer compound. The product may be used in the ordinary manner by a user and during use the O.M. Complex oral compound serves to capture and neutralize odor causing compounds.
