(54) **Title:** DEVICE FOR TRANSFERRING MATERIAL

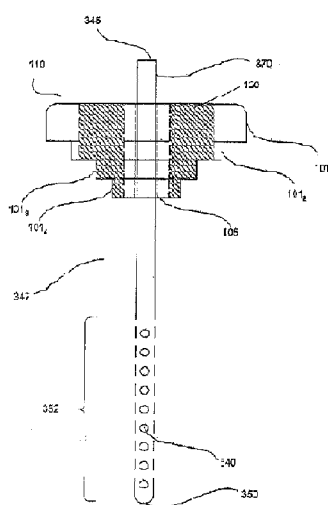

Fig. 3

(57) **Abstract:** A device for transferring material is presented. The device includes a cap (110). The cap includes a plurality of concentric ringed sections (101) stacked together for engaging to an opening of a container. The cap has a feed opening (105) for inserting a transfer tube (370) into the container and a vent extending (120) from a bottom surface to a top surface of the cap.
