(54) Title: INFORMATION PROCESSING APPARATUS, INFORMATION PROCESSING SYSTEM, INFORMATION PRO-
CESSING METHOD, AND RECORDING MEDIUM

(57) Abstract: An information processing apparatus includes: display screen generation means configured to generate a display screen including a spatial image and additional information for a target portion, the spatial image being an image indicating a space including the target portion, the additional information being superimposed on the spatial image. The additional information is generated based on a distance from a position of a point of view from which the spatial image is viewed to the target portion in the spatial image.
