

11. A compound as claimed in any of claims 1 to 9 for use in the treatment of diseases or conditions which benefit from inhibition of p38 MAP kinase activity.

12. Compounds according to anyone of claims 1 to 9 for use in the treatment of diseases or conditions which benefit from inhibition of p38 MAP kinase activity

5 according to claim 11 wherein the diseases or conditions is chronic eosinophilic pneumonia, asthma, COPD, adult respiratory distress syndrome (ARDS), exacerbation of airways hyper-reactivity consequent to other drug therapy or airways disease that is associated with pulmonary hypertension.

10 ~~13. A method of treating diseases or conditions in a human subject which benefit from inhibition of p38 MAP kinase activity comprising administering to such subject in need thereof a compound as claimed in any of claims 1 to 9.~~

~~14. A method according to claim 13, wherein the disease or condition is chronic eosinophilic pneumonia, asthma, COPD, adult respiratory distress syndrome (ARDS), exacerbation of airways hyper-reactivity consequent to other drug~~
15 ~~therapy or airways disease that is associated with pulmonary hypertension.~~

13~~4~~5. The use of a compound as claimed in any of claims 1 to 9 in the manufacture of a medicament for the treatment of diseases or conditions which benefit from inhibition of p38 MAP kinase activity.

14~~4~~6. The use according to claim 13~~4~~5 wherein the disease or condition is chronic
20 eosinophilic pneumonia, asthma, COPD, adult respiratory distress syndrome (ARDS), exacerbation of airways hyper-reactivity consequent to other drug therapy or airways disease that is associated with pulmonary hypertension.
