Claims

1. A pharmaceutical composition comprising hydrochloride salt of N-(2',4'-difluoro-5-(5-(1-methyl-1H-pyrazol-4-yl)-1H-benzo[d]imidazol-1-yl)-[1,1'-biphenyl]-3-yl)cyclopropanesulfonamide (I) as an active ingredient and an excipient which is copovidone.

2. A composition according to claim 1, which comprises

(a) from about 0.1 to about 98 %, preferably from about 0.2 to about 70 %, more preferably from about 0.3 to about 60 %, per weight of the composition, of hydrochloride salt of compound (I); and

(b) from about 0.5 to about 50 %, preferably from about 1 to about 40 %, more preferably from about 2 to about 35 %, per weight of the composition, of copovidone.

3. A composition according to claim 1 or 2, wherein the hydrochloride salt is in crystalline form.

4. A composition according to any of claims 1 to 3, which is in the form of a tablet, powder or suspension.

5. A composition according to claim 4, which is in the form of a tablet.

6. A composition according to claim 5, comprising

(a) from about 10 to about 80 %, preferably from about 15 to about 75 %, more preferably from about 20 to about 70 %, still more preferably from about 25 to about 55 %, per weight of the composition, of hydrochloride salt of compound (I); and

(b) from about 1 to about 50 %, preferably from about 2 to about 30 %, more preferably from about 3 to about 20 %, %, still more preferably from about 4 to about 15 %, per weight of the composition, of copovidone.

7. A composition according to claim 6, comprising further from about 10 to about 75 %, preferably from about 15 to about 70 %, more preferably from about 20 to about 65 %, per weight of the composition, of a filler.

8. A composition according to claim 6 or 7, comprising further from about 0.5 to about 10 %, preferably from about 3 to about 7 %, per weight of the composition, of a disintegrant.

9. A composition according to any one of claims 6 to 8, comprising further from about 0.5 to about 10 %, preferably from about 3 to about 7 %, per weight of the composition, of a binder.

10. A composition according to any one of claims 6 to 9, comprising further from about 0.2 – 20 %, preferably from about 1 – 15 %, for example from about 2 – 12 %, per weight of the composition, of a lubricant.

11. A composition according to any one of claims 6 to 10, comprising further from about 0.5 – 15 %, preferably from about 1 – 10 %, for example from about 2 – 8 %, per weight of the composition, of a glidant.

12. A composition according to claim 4, which is in the form of powder.

13. A composition according to claim 12, comprising

(a) from about 25 to about 98 %, preferably from about 30 to about 95 %, more preferably from about 40 to about 90 %, still more preferably from about 50 to about 85 %, per weight of the powder, of hydrochloride salt of compound (I); and

(b) from about 1 to about 50 %, preferably from about 3 to about 40 %, more preferably from about 5 to about 30 %, still more preferably from about 10 to about 20 %, per weight of the powder, of copovidone.

14. A composition according to claim 13, comprising further

from about 0.1 to about 20 %, preferably from about 0.2 to about 15 %, more preferably from about 0.5 to about 10 %, per weight of the powder, of a lubricant.

15. A composition according to claim 13 or 14, comprising further

from about 0.1 to about 20 %, preferably from about 0.2 to about 15 %, more preferably from about 0.5 to about 10 %, per weight of the powder, of a glidant.

16. A composition according to claim 4, which is in the form of suspension.

17. A composition according to claim 16, comprising

(a) from about 0.1 to about 20 %, preferably from about 0.2 to about 10 %, more preferably from about 0.3 to about 5 %, per weight of the suspension, of hydrochloride salt of compound (I);

(b) from about 0.3 to about 10 %, preferably from about 1 to about 8 %, more preferably from about 2 to about 5 %, per weight of the suspension, of copovidone; and

(c) from about 80 to about 99.5 %, preferably from about 85 to about 99 %, more preferably from about 90 to about 95 %, per weight of the suspension, of water.

18. A composition according to claim 17, comprising further

from about 0.1 to about 10 %, preferably from about 0.2 to about 5 %, more preferably from about 0.3 to about 2 %, per weight of the suspension, of surfactant.
