6,7,8, 9 -TETRAHYDRO- 5H- PYRIMIDO [4, 5-D] AZEPIN-4-YL] -AMINE DERIVATIVES AS MODULATORS OF TRPVL FOR THE TREATMENT OF PAIN

ABSTRACT

Certain tetrahydro-pyrimidoazepine compounds are described, which are useful as TRPV1 modulators. Such compounds may be used in pharmaceutical compositions and methods for the treatment of disease states, disorders, and conditions mediated by TRPV1. Thus, the compounds may be administered to treat, e.g., pain, itch, cough, asthma, or inflammatory bowel disease.
