

ABSTRACT**METHOD OF AUTOMATICALLY AND FAIRLY PLAYING A DIE
GAME AND MACHINE FOR THE SAME**

A method of automatically and fairly playing a die game has acts of actuating a die game machine, shaking multiple dice (50) by a die-shaking device (20) in an opaque cap (24), recognizing pips on the dice (50) with a detecting device (30), predicting numbers and placing stakes by players through player-interfaces (40), calculating scores of the players by a central control device (11), revealing the pips on the dice (50) to the players by removing the opaque cap (24) and showing the scores of the players on displays of the player-interfaces (40).
