

DECORATIVE COVER AND BOTTLE COVER AND BOTTLE BODY

STRUCTURE COMPRISING THE DECORATIVE COVER

ABSTRACT

A decorative cap, a bottle cap comprising same, and a bottle structure. The decorative cap comprises a cap body (1); the cap body comprises a top cap (11), and an annular side wall (12) having a shrunken waistline; the side wall (12) comprises a receiving structure (121) located on the inner side surface of the side wall (12) and used for receiving the edge of a support ring of a bottle, and grooves (122) located at the bottom edge of the inner side surface of the side wall (12); the receiving structure (121) and the outer wall surface of a bottle corresponding to the receiving structure (121) form a gap; the tops of the grooves (122) run through the gap, and the bottoms of the grooves (122) run through the bottom surface of the side wall (12). According to the decorative cap, the bottle cap comprising the decorative cap, and the bottle structure, ventilation between the decorative cap and a sealing cap or between the decorative cap and a bottle can be achieved, so that residual moisture or liquid on the bottle or the sealing cap body can be quickly removed.
