

MOVING PICTURE CODING METHOD, MOVING PICTURE
CODING APPARATUS, MOVING PICTURE DECODING METHOD,
AND MOVING PICTURE DECODING APPARATUS

5

ABSTRACT

10 The moving picture coding method for coding an input
image includes: converting a value of a first parameter into a
first binary signal, the first parameter identifying a type of a
sample offset process to be applied to a reconstructed image
corresponding to the input image (S301); and coding at least
a portion of the first binary signal through bypass arithmetic
coding using a fixed probability (S302).
