(54) Title: SUSPENSION CONNECTOR SYSTEM CONFIGURED FOR USE WITH SUSPENDED SCAFFOLDING, AND RELATED METHODS

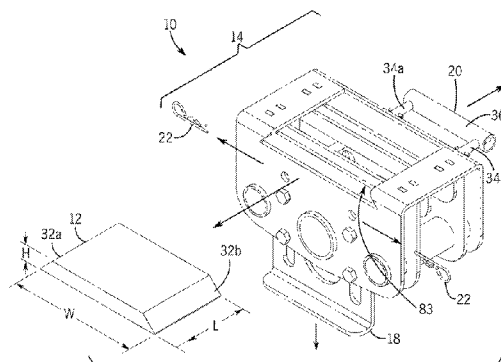

FIG. 1B

(57) Abstract: A suspension connector system configured for use with suspended scaffold systems and related methods of installation, assembly and use are disclosed herein. In accordance with at least one exemplary embodiment, methods of using a suspension connector system, for example, in relation to a structure, is disclosed. Suspension connector systems, as disclosed herein, can be affixed or otherwise connected to a structure so as to permit hanging of a suspended scaffold system, which can include work platform assemblies and access systems. Further in accordance with at least some embodiments of the present disclosure, a plurality of suspension connector systems can be connected to a structure, for example, in a predetermined pattern or an array, to support, or be combined with, a suspended scaffold system of the kinds disclosed.
