CLAIMS

1. A spray-dried flavor composition comprising oxidative stable spray-dried particles and a water-soluble matrix, the matrix comprising:

(i) a filler;

(ii) a fat component encapsulated in the matrix, wherein the fat component is 5% to 25% of the total weight of the matrix; and

(iii) an emulsifier comprising soluble rice bran and oat oil,

wherein the emulsifier provides emulsification and improved antioxidant activity for the spray-dried flavor composition; and

wherein the emulsifier is 10% to 20% of the total weight of the matrix.

2. The spray-dried flavor composition according to claim 1, further comprising a densifier.

3. The spray-dried flavor composition according to claim 2, wherein the densifier is sucrose.
