(84) Designated States (*unless otherwise indicated, for every
kind of regional protection available*): ARIPO (BW, GH,

(54) Title: SMART INTRAVENOUS CATHETER SYSTEM

FIG. 2A

(57) Abstract: A smart intravenous catheter (IVC) assembly (201) including a stabilization platform (202) configured to hold an IVC (212) in a fixed position relative to tissue of a patient, and a sensor module (204) mechanically supported by the stabilization platform (202). The sensor module (204) including at least one sensor configured to sense a physical characteristic of the tissue of the patient and produce sensed data representing the physical characteristic of tissue of the patient, and a transceiver (502H) configured to transmit the sensed data to a smart device (506) remote from the stabilization platform (202).
