(54) Title: KIT FOR THE SELF-ASSEMBLY OF A RECLOSABLE CONTAINER OF CONSUMER GOODS

(57) Abstract: A kit for the self-assembly of a reclosable container of consumer goods includes a disposable cartridge (2) of consumer goods (6) comprising: a sealed enclosure of consumer goods (6); and an outer housing (12) around the sealed enclosure of consumer goods (6) having an opening through which the sealed enclosure of consumer goods (6) protrudes and is accessible. The kit also includes a reusable closure (4) comprising: a dispensing aperture (32); and a lid (34) moveable between a closed position, in which the lid (34) covers the dispensing aperture (32), and an open position, in which the dispensing aperture (32) is accessible. The reusable closure (4) and the outer housing (12) of the disposable cartridge (2) are releasably engageable so that the dispensing aperture (32) of the reusable closure (4) and the opening of the outer housing (12) are substantially aligned. The kit is particularly suitable for the self-assembly of a reclosable pack of smoking articles such as cigarettes.
