(54) Title: METHOD TO CREATE THREE DIMENSIONAL IMAGE INSIDE STONE

Figure - 1d

(57) Abstract: The invention is a method for creation of three-dimensional image in the transparent stone (1) and it comprises process steps of curving the inside of the said transparent stone (1), forming space therein and providing an outer shell (1.1), making at least one designing on the surface of the said outer shell (1.1) facing inside, making at least one transparent filling layer (2) on the surface of the said outer shell (1.1) facing inward, making at least one designing on the surface of the said filling layer (2) facing inward, repeating one under the other the designing and filling layer (2) designing as per the design on the surface of the said filling layer (2) facing inward, connecting a at least one three-dimensional object (5) to the inward facing surface of the filling layer (2) at the very bottom, and closing the lower part of the stone (1).
