(54) Title: IDENTIFYING FABRICATED MARITIME SIGNALS

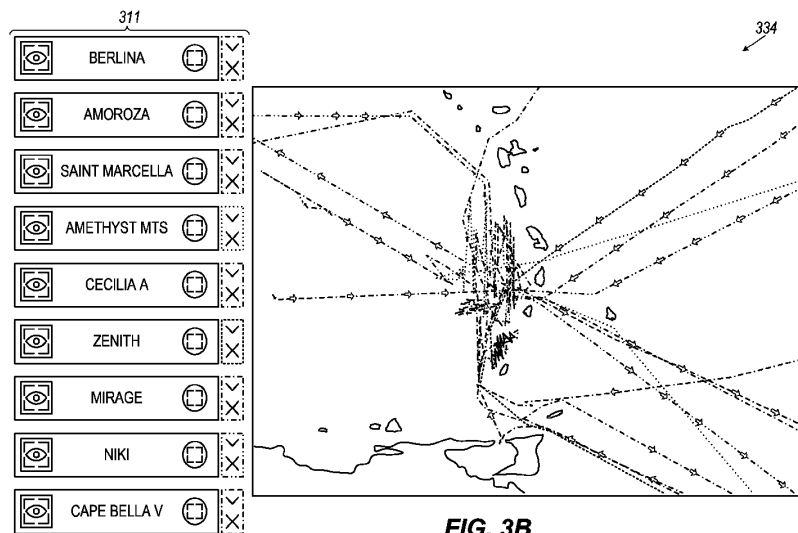

FIG. 3B

(57) Abstract: A method, system and product for identifying fabricated maritime signals. The method comprises obtaining one or more location-reporting signals of a maritime vessel, wherein the one or more location-reporting signals comprise one or more respective sets of geographical coordinates, each of which having a timestamp; determining that the one or more location-reporting signals are at least partially fabricated, wherein said determining is based on an identification that a maritime path indicated by the one or more location-reporting signals is unfeasible; and performing a responsive action.
