

SYSTEMS AND METHODS FOR PERFORMING A REAL-TIME GLYCAN ASSAY OF A SAMPLE

ABSTRACT

Systems and methods that facilitate the automatic (or substantially automatic) preparation of a sample of a product containing polypeptides for glycan analysis and automatic (or substantially automatic) performance of a glycan assay of that sample. Thus, the preparation and analysis can be performed substantially in-real time, or, in other words, much more quickly than presently allowed by conventional systems and methods.
