

TRANSMISSION CABLE, JACK TO WHICH TRANSMISSION CABLE IS
INSERTED, AND RECORDING DEVICE

ABSTRACT OF THE DISCLOSURE

A jack is provided to be inserted with a cable dedicated to analog transmission, a cable dedicated to digital transmission, and a cable dedicated to analog and digital transmissions. A recording device is also provided to have the jack and a cable identifying unit so that the signal to be recorded is automatically switched according to the transmitted digital signal and the cable identified result given by the cable identifying unit.
