35. The method according to any one of claims 1 to 34, wherein the specific activity of the ADAMTS13 protein in the culture medium is at least 600U per mg ADAMTS13 protein.

36. The method of claim 35, wherein the specific activity of the ADAMTS13 protein in the culture medium is at least 800U per mg ADAMTS13 protein.

37. The method according to any one of claims 1 to 36, wherein the culture yields at least 400U of ADAMTS13 activity per L of culture per day (U/L/D).

38. The method of claim 37, wherein the culture yields at least ~~about~~ 800U of ADAMTS13 activity per L of culture per day (U/L/D).

~~39. A composition comprising a disintegrin and metalloproteinase with thrombospondin motifs 13 (ADAMTS13) protein prepared by a method comprising expressing the ADAMTS13 protein in a cell culture according to the method of any one of claims 1 to 38.~~
