(54) Title: TISSUE PAPER PRODUCT, AND PROCESS FOR MAKING THE PRODUCT		
(57) Abstract The present invention relates to a tissue paper product comprising a tissue paper substrate and an enzyme inhibiting composition, the enzyme inhibiting composition being transferable from the tissue paper substrate onto the skin and being present in an amount sufficient to inhibit enzyme activity upon the skin. In particular it relates to the use of a facial handkerchief for the inhibition of enzyme activity upon the skin of the nasal region. Furthermore the present invention relates to a process for the manufacture of such tissue paper products.
