(54) **Title:** METHOD, APPARATUS AND ELECTRONIC DEVICE FORMOVING TARGET ELEMENT

FIG. 1A

FIG. 1B

(57) **Abstract:** Methods, apparatus and electronic devices for moving a target element are provided herein. An exemplary method can be implemented on an electronic device having a display unit. The display unit can display a display interface. A selection signal can be received. A state of a target element on the display interface can be updated as a selected state according to the selection signal. A movement signal linked after the selection signal can be received. A notification message of a target location can be displayed following the movement signal on the display interface. A confirmation signal linked after the movement signal can be received. The target element can be moved to the target location based on the confirmation signal.
