(54) Title: DATA SHARING SYSTEM FOR AIRCRAFT TRAINING

(57) Abstract: A method and apparatus for managing data in a platform. A first permission level is identified for first data in the data generated by a source in the platform. A second permission level is identified for an intended recipient of the first data. The first data is modified to form second data in the data in which the second data has the second permission level. The second data is distributed to the intended recipient.
