(54) Title: HYPOCHLOROUS ACID FORMULATIONS AND METHODS FOR TREATING SKIN CONDITIONS

(57) Abstract: The present invention in various aspects and embodiments provides methods and formulations for treating inflam-
matory conditions of the skin and/or conditions involving compromised skin barrier function. Such diseases include blistering dis-
eases of the skin, hereditary defects in skin barrier function, hyperproliferative conditions involving the skin, conditions associated
with aging or damaged skin, immunological disorders involving the skin, among others.
