FIGURE 2

Treatment A: A single 5 g oral dose of OCR-002 oral solution administered under fasting conditions
Treatment B: A single 5 g oral dose of OCR-002 oral solution administered under fed conditions
Treatment C: A single 5 g intravenous dose of OCR-002 solution infused over 1 hour under fasting conditions
Treatment D: A single 5 g oral dose of OCR-002 oral solution administered under fasting conditions following discontinuation of lactulose
