(54) Title: A METHOD FOR RECOVERING METAL VALUES FROM SOLDER DROSS

Figure 1

(57) Abstract: The present invention relates to the field of recovering metal values from solder dross. More particularly, the present invention relates to a method of recovering metal values from solder dross of electronic manufacturing services in an economical manner. The process provided by the present invention discloses selective recovery of metal values by selective precipitation. Further, the method of recovering metal values from solder dross is clean, green and economical.
