

METHOD FOR PROVIDING INFORMATION

ABSTRACT

A method for providing information includes: arranging, on the basis of taste information regarding a user and the menu information regarding a second restaurant indicated by a store ID, first menu items included in the menu information in order according to the taste information; and causing the first menu items arranged in the order according to the taste information to be displayed in a first display area of a display screen of a terminal apparatus, and causing second menu items specified by the second restaurant to be displayed in a second display area of the display screen.
