 IPC = F25D 27/00
 IPER 4/5/98

(57) Abstract

A refrigerator (31) capable of being internally illuminated wherein the illumination is provided by an edge-lit panel (32; 33; 34) of a substantially transparent material having two opposed surfaces of which at least one is within the refrigerator and on which a matrix of dots is applied so as to produce a light piping effect internally to the refrigerator.
