(54) Title: A SEALING MODULE, A USE THEREOF AND A TRANSIT SYSTEM COMPRISING SUCH A SEALING MODULE

Fig. 2

(57) Abstract: A sealing module (12) for leading a cable (11) or a pipe through a partition, wherein the sealing module (12) comprises a first module half (16) and an opposite second module half (16). Each of the first and second module halves (16) comprise a groove (17) provided with a blind plug element (20) having a first side arranged towards the first side of the other blind plug element (20). The present invention is also related to the use of such a sealing module, a transit system comprising such a sealing module and a sealing module half of such a sealing module.
