(54) Title: NON-VOLATILE MEMORY DEVICE WITH USB AND WIRELESS CONNECTIVITY AND METHOD FOR CONTROLLING THE CONNECTIVITY

(57) Abstract: A non-volatile memory device (10) having a USB connector (12) with a USB controller (14), and a wireless antenna (18) with a wireless controller (22). The USB controller (14) and the wireless controller (22) are both operatively connected to the non-volatile memory (16). When the non-volatile memory device (10) is operatively connected to a host using the USB connector (12), the USB controller (14) has priority over the wireless controller (22) for read from, and write to, functions with the non-volatile memory (16). A corresponding method is also disclosed.
