(54) Title: SYSTEM FOR INTEGRATING PHYSICAL AND ELECTRONIC SPORTS

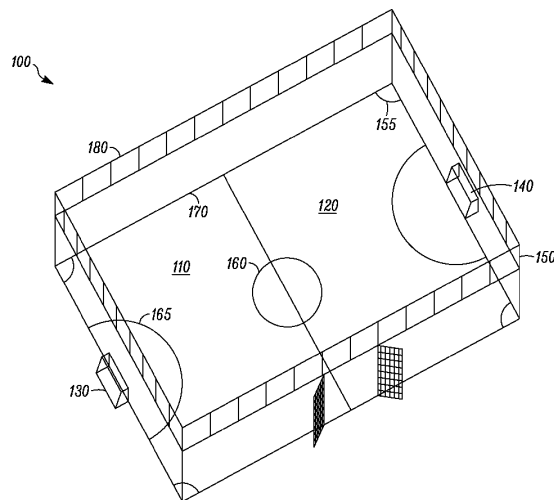

FIG. 1

(57) Abstract: A system for a hybrid electronic and physical sporting experience includes a physical playing environment (500) for a pair of teams to play a physical sport, a sporting object for playing the physical sport within the physical playing environment, at least two electronic game controllers each of the two electronic game controllers associated with one of the teams, and a display board. Components of the physical playing environment modified to receive electronic communication from the electronic game controllers may include at least one goal (240), and a lighting system (290). At least two of the electronic game controllers allows electronic sport team members to send instructions to modify at least one of the components of the playing environment. The display board receives electronic communication from the electronic game controllers and displays a status of the hybrid electronic and physical sporting experience.
