(54) Title: INTELLIGENT GRAPHICS INTERFACE IN A HANDHELD WIRELESS DEVICE

FIG. 1

(57) Abstract: Various embodiments of the invention may allow applications and information to be clustered together in ways that simplify and automate various tasks. Other embodiments may present a graphical user interface to the user that allows the user to choose from a matrix of information categories and applications that can help provide that information. Still other embodiments may provide different user interface methods based on status awareness.
