(54) Title: A RECORDING MEDIUM, METHOD OF CONFIGURING CONTROL INFORMATION THEREOF, METHOD FOR RECORDING OR REPRODUCING DATA USING THE SAME, AND APPARATUS THEREOF

(57) Abstract: A method of recording control information in a recording medium, such as an optical disc, including at least one recording layer is provided. Velocity information and per recording velocity write strategy (write strategy parameters) is included in control information, such that standardized control information can be uniformly applied to cope with the playback of a recorded optical disc. The method includes steps of recording, per applicable recording velocity, the control information within a management area of the at least one recording layer of the optical disc; and recording at least one write strategy information per the applicable recording velocity within the control information.
