

# **Steel Cable Anti-Stripping Device for Elevator Speed Limiter and Elevator Speed Limiter Having such Device**

## **Abstract**

---

The invention application provides a steel cable anti-stripping device (4) and provides an elevator speed limiter (10) having such device. The steel cable anti-stripping device (4) is fixed to a base (2), and a cable wheel (1), which is wound with a steel cable (5) inside its cable groove (6), is rotatably mounted to the base (2). The steel cable anti-stripping device (4) is so formed that a portion thereof covers the outer peripheral structure of the cable wheel (1), in order to prevent the steel cable (5) from moving out of the cable groove (6) of the cable wheel (1).

FIG. 1
