

LUBRICATING OIL COMPOSITIONS COMPRISING A POLYALPHAOLEFIN

ABSTRACT

Lubricating oil compositions are disclosed. The lubricating oil compositions include
5 one or more base oils (A) containing one or more polyalphaolefin (PAO) base oils derived at
least in part from a C₁₂ olefin. The lubricating oil compositions further include from about 65
wt. % to about 85 wt. %, based on the total weight of the lubricating oil composition, of one
or more base oils (B) having a kinematic viscosity at 100°C of from about 3.0 cSt to about
5.5 cSt; and from about 0.1 wt. % to about 10 wt. %, based on the total weight of the
10 lubricating oil composition, of a succinimide dispersant.
