(54) **Title:** VIDEO PLAYING PROGRESS CONTROL METHOD, APPARATUS AND DEVICE, AND STORAGE MEDIUM

(54) 发明名称: 一种视频播放进度的控制方法、装置、设备及存储介质

图 1

S101 In response to a long-press operation acting on a preset playing control area on a video playing page of a first video, enter a pure video playing mode
S102 On the basis of the pure video playing mode, continue playing the first video on the video playing page according to a preset fast-forward playback speed

(57) **Abstract:** Provided in the present disclosure are a video playing progress control method, apparatus and device, and a storage medium. The method comprises: in response to a long-press operation acting on a preset playing control area on a video playing page of a first video, entering a pure video playing mode; and on the basis of the pure video playing mode, continuing playing the first video on the video playing page according to a preset fast-forward playback speed, wherein the preset playing control area is determined on the basis of a display position of a playing control progress bar, and the pure video playing mode is used for hiding the display of functional controls on the video playing page. Thus, in the embodiments of the present disclosure, a video fast-forward playing function based on a pure video playing mode can be triggered by means of a long-press operation acting on a preset playing control area on a video playing page, thereby enriching interaction functions during a video playing process, and improving the video watching experience of a user.

(57) 摘要: 本公开提供了一种视频播放进度的控制方法、装置、设备及存储介质, 所述方法包括: 响应于作用在第一视频的视频播放页面上的预设播控区域内的长按操作, 进入视频播放纯净模式; 基于视频播放纯净模式, 在视频播放页面上按照预设快进倍速, 继续播放第一视频; 其中, 预设播控区域为基于播控进度条的显示位置确定, 视频播放纯净模式用于隐藏显示视频播放页面上的功能控件。可见, 本公开实施例能够通过作用在视频播放页面上的预设播控区域的长按操作, 触发基于视频播放纯净模式的视频快进播放功能, 丰富了视频播放过程中的交互功能, 提升了用户的视频观看体验。
