CLAIMS

We claim:

1. A topical skin care cream for treating ~~rosacea in a human in need thereof~~ skin redness, consisting essentially of ~~therapeutically effective amounts of water, Aloe Barbadensis Leaf Juice, Cocos Nucifera Oil, Hydrolyzed Glycosaminoglycans, Caprylic/Capric Triglycerides., Melia Azadirachta Leaf Extract, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Disodium Lauriminodipropionate Tocopheryl Phosphates, Acetyl Tetrapeptide-40, Caprylyl Glycol, Butylene Glycol, Sodium Hyaluronate, Simmondsia Chinensis Seed Oil, Laureth-4, Salicyloyl Phytosphingosine, Dipotassium Glycyrrhizinate, Sodium Ascorbyl Phosphate, Phenoxyethanol and Caprylyl Glycol.~~

7 – 12 wt% spray dried powdered aloe vera;

4 – 9 wt% Cocos nucifera (coconut oil);

2 – 7 wt% caprylic/capric triglyceride and Melia azadirachta extract;

2 – 7 wt% of a thickening agent selected from a polyacrylamide, a C13-14 isoparaffin, Laureth-7 and mixtures thereof;

1 – 5 wt% disodium lauriminodipropionate tocopheryl phosphate;

1 – 3 wt% acetyl tetrapeptide-40 and caprylyl glycol, wherein the caprylyl glycol is present in 0.1 to 1 wt%;

0.1 – 3 wt% sodium hyaluronate;

0.1 – 3 wt% simmondsia chinensis (Jojoba) seed oil

0.1 – 3 wt% laureth-4;

0.1 – 3 wt% dipotassium glycyrrhizate;

0.1 to 1 wt % salicyloyl phytosphingosine;

0.1 – 1 wt% sodium ascorbyl phosphate;

0.1 – 3 wt% phenoxyethanol and

50 – 70 wt% water.

~~2. The cream of claim 1, wherein the Salicyloyl Phytosphingosine is present at 0.1%–1%.~~

~~3~~ 2. The cream of claim 1, wherein the cream has a viscosity of 30,000-50,000 cPs at 25° C.

~~4~~ 3. The cream of claim 1, wherein the pH of the cream is between 4.5–6.0.

~~5. A method for treating rosacea in a human in need thereof consisting essentially of administering a therapeutically effective amount of the cream of claim 1 to effectively treat the rosacea in the human in need thereof.~~

~~6. The method of claim 5, wherein the administering is for 60 days.~~
