DISPOSABLE BODY FLUID ABSORBENT WEARING ARTICLE

5 A disposable body fluid absorbent wearing article 1 includes a liquid-pervious topsheet 2 including plastic film layer sections 6, liquid-pervious openings 31 and a first fibrous layer 13 bonded to the lower surface of the film layer sections 6. A second fibrous layer 41 forming a
10 liquid-absorbent core 4 is contiguous to the lower surface of a first fibrous layer 13 and a third fibrous layer 42 is contiguous to the lower surface of the second fibrous layer 41. The wearing article 1 is constructed so that its Klemm's water absorbency may progressively increase in the order of the first
15 fibrous layer 13, the second fibrous layer 41 and the third fibrous layer 42.

Refer to Fig. 1
