(54) Title: ENABLING EMERGENCY CALLS AND PUBLIC SAFETY SERVICES SUPPORT

Figure 2

(57) Abstract: Various aspects of the present disclosure relate to enabling emergency calls and public safety services support. A user equipment (UE) may receive a master information block (MIB) including a cell barred information element (IE). The UE may receive a system information block type 1 (SIB1). The UE may determine whether the MIB indicates that the UE is barred for a cell. In response to the UE being barred for the cell, the UE may determine whether the SIB1 includes a cell barred exception IE that indicates an exception for emergency communication on the barred cell. In response to the SIB1 including the cell barred exception IE, The UE may assign the cell as an acceptable cell for the UE to camp for limited services, including the emergency communication.
