(54) Title: STRUCTURED ILLUMINATION OF A SAMPLE

FIG. 1

(57) Abstract: A system includes: a light source (502); first (506) and second (508) gratings; and at least one reflective component (504) that in a first position forms a first light path originating at the light source and extending to the first grating and thereafter to a subsequent component in the system, and that in a second position forms a second light path originating at the light source and extending to the second grating and thereafter to the subsequent component.
