

HERMETIC COMPRESSOR AND DEVICE USING THE SAME

ABSTRACT OF THE DISCLOSURE

A hermetic compressor and a device having the

5 hermetic compressor, with improved lubricity between a
connecting rod and a piston pin. The hermetic compressor
has: a sealed container which contains lubricant; a piston
which is reciprocable and is provided with a piston pin; a
piston-pin axial-direction lubricant passage which extends

10 in an axial direction of the piston pin; and a piston-pin
circumferential direction groove which extends in a
circumferential direction of the piston pin.
