(b)

This diagram shows the head assembly from a side perspective. The main body 2H is horizontal, with a dashed line indicating its extension. A vertical component 2H10 is attached to the left end. A long, thin component 81 is angled upwards from the main body. A bracket 82 is attached to the main body, with a dashed line 821 indicating its extension. A component 83 is attached to the main body, with a dashed line 83a indicating its extension. A component 84 is attached to the main body, with a dashed line 841 indicating its extension. A component 108 is shown with a curved arrow indicating its movement. The text "(ヘッド側)" is written on the right side.
