

A B S T R A C T

DISPOSABLE BODY FLUIDS ABSORBENT ARTICLE

A disposable body fluids absorbent article including an absorbent core 4 contained discrete particles 13, the discrete particles 13 consisting of first polymer particles 13A which present an initial water absorption rate and second polymer particles 13B which present an initial water absorption rate lower than that of the first polymer particles 13A, the first polymer particles 13A being distributed exclusively in a zone defined by lower 1/2 of a thickness of the core 4.

Refer to Fig. 2.
