

**ABSTRACT OF THE DISCLOSURE**

**Title of the invention: ABSORBENT PAD SUITED FOR USE WITH TAMPON**

Provided is an absorbent pad for being used with a sanitary tampon, which includes a pad body having liquid absorbency. The pad body has front and rear faces, and a string receiving portion. The string receiving portion passes through from the front face to the rear face so that a string extending from the tampon can be inserted into the string receiving portion.
