- upon request of the applicant, before the expiration of the time limit referred to in Article 21(2)(a)

(54) **Title:** INDIRECT PATH FAILURE PROCEDURE IN MULTI-PATH

FIG. 3

(57) **Abstract:** Example embodiments of the present disclosure relate to a first UE, a second UE, a base station, methods, apparatuses, and computer readable medium for indirect path failure procedure in multi-path scenario. A first UE receives an indication from a second UE which indicates that a connection between the second UE and a third device is failed. The first UE further transmit failure information to the third device or ignore the indication from the second UE. As such, an indirect path failure procedure is discussed, therefore, UE behavior is defined, and the communication between the first UE and the third device is guaranteed.
